CG-6 AUTOGRAV™ SURVEY GRAVITY METER

SENSOR TYPE
Fused quartz using electrostatic nulling

READING RESOLUTION
1 microGal

STANDARD DEVIATION
< 5 microGal

OPERATING RANGE
World-wide (8,000 mGal without resetting)

RESIDUAL DRIFT
< 20 microGal/day

UNCOMPENSATED DRIFT
< 200 microGal/day

RANGE OF AUTOMATIC TILT COMPENSATION
±200 arcseconds

TARES
Typically < 5 microGal for shocks up to 20 g

AUTOMATED CORRECTIONS
Tide, instrument tilt, temperature, noisy sample filter, seismic noise filter, drift

DATA OUTPUT RATE
User selectable up to 10 Hz

GPS ACCURACY
Standard < 15 m; DGPS (WAAS) < 3 m

TOUCH-FREE OPERATION
Handheld Tablet with Bluetooth

BATTERY CAPACITY
2 X 6.8 Ah (10.8 V) rechargeable lithium smart batteries. Full day operation at 25 °C (77 °F)

POWER CONSUMPTION
5.2 Watts at 25 °C (77 °F)

OPERATING TEMPERATURE
-40 °C to + 45 °C (-40 °F to 113 °F); Optional high temperature version to +55 °C (131 °F)

DIGITAL DATA OUTPUT
USB and Bluetooth

DIMENSIONS
21.5 cm(H) x 21 cm x 24 cm (8.5 in x 8.2 in x 9.4 in)

WEIGHT
5.2 kg (11.5 lbs) including batteries

STANDARD SYSTEM CONTAINS
• CG-6 Autograv™ Gravity Meter
• CG-6 Tripod
• 2 Rechargeable Smart Batteries
• Battery Charger
• Tablet Computer w/GPS + accessories
• Lynx LG Land Gravity Software
• Power Supply and USB Cable
• Transit Case
• Shoulder Strap
• User Manual
• Spare Parts Kit

AVAILABLE OPTIONS AND ACCESSORIES
• High-Temperature (HT) Meter Option
• Cold Weather Survey Accessories
• Surveyor’s Backpack
• Spare Meter Batteries
• Spare Tablet Batteries
• Trident Gradient Tripod
• Spare Battery Caps

* Tablet and CG-6 specifications are subject to change without notice.

PORTABLE LIGHT-WEIGHT SURVEY GRAVITY METER
• High-Visibility Console
• All-Weather Operation (-40 to +45 °C)
• Dust-Proof, Water Resistant Meter
• Intuitive Survey-Driven Interface
• Backlit Inclined Display
• Robust Fused-Quartz Sensor
• No Clamping Required
• On-Board GPS Receiver
• Bluetooth Connectivity
• Simplified Leveling Interface
• On-Board Mass Storage (4 GB)
• Hot-Swap Dual High-Capacity Batteries (24 hr at 25 °C)
• 5 microGal Repeatability
• Tares Under 5 microGal for up to 20 g Shocks
• Low Drift Sensor (Uncorrected: < 200 microGal/day)
• Low Residual Drift (< 20 microGal/day)
• Automated Corrections (Tides, Tilts, Drift, Temperature)

RUGGEDIZED SMART TABLET ACCESSORY
• Lynx LG Land Gravity Survey Software
• Touch-Free Field Operation of Gravimeter
• Built-in GPS and Camera
• Windows Operating System
• Daylight Readable Multi-Touch Screen
• Real-Time Position Maps
• In-Field Simple Bouguer Maps
PORTABLE LIGHT-WEIGHT SURVEY GRAVITY METER

- High-Visibility Console
- All-Weather Operation (-40 to +45 °C)
- Dust-Proof, Water Resistant Meter
- Intuitive Survey-Driven Interface
- Backlit Inclined Display
- Robust Fused-Quartz Sensor
- No Clamping Required
- On-Board GPS Receiver
- Bluetooth Connectivity
- Simplified Leveling Interface
- On-Board Mass Storage (4 GB)
- Hot-Swappable Dual High-Capacity Batteries (24 hr at 25 °C)
- 5 microGal Repeatability
- Tares Under 5 microGal for up to 20 g Shocks
- Low Drift Sensor (Uncorrected: < 200 microGal/day)
- Low Residual Drift (< 20 microGal/day)
- Automated Corrections (Tides, Tilts, Drift, Temperature)

RUGGEDIZED SMART TABLET ACCESSORY

- Lynx LG Land Gravity Survey Software
- Touch-Free Field Operation of Gravimeter
- Built-in GPS and Camera
- Windows Operating System
- Daylight Readable Multi-Touch Screen
- Real-Time Position Maps
- In-Field Simple Bouguer Maps
The CG-6 Autograv™ is the next generation land gravity meter combining a modern, intuitive user interface with our renowned quartz sensor technology housed in a rugged yet lightweight enclosure. The new CG-6 offers fast, reliable and precise gravity measurements and includes an array of mapping and post processing functionality with our new Lynx LG software conveniently installed on a tablet computer and provided as a standard feature. The new CG-6 offers you dependable gravity survey data with ease and efficiency making surveying more cost effective than ever before.

APPLICATIONS

OIL & GAS EXPLORATION
Gravity can be used to determine the location of a Salt dome in which oil or gas could be present. Measuring the density change in an oil reservoir can assist in the oil and gas recovery process.

MINERAL EXPLORATION
Gravity can detect Volcanic Massive Sulphides deposits associated with nickel deposits, diamond bearing Kimberlites, Banded Iron Formations, and Impact Basins. Gravity can also be used to determine the size of the deposit.

GEOLOGICAL MAPPING
Gravity can be used to complement the results of geological mapping.

CIVIL ENGINEERING
Gravity can be used to study integrity of roads, dams, and dykes, looking for areas of weakness in the sub-surface.

GEOTECHNICAL
Gravity can detect Voids or Cavities whether they are tunnels, washouts or sink holes.

REGIONAL GRAVITY STUDIES
Gravity can determine the rock type, soil compaction and presence of water.

GEOID MAPPING
By measuring gravity changes on the Earth’s surface, a more accurate correction can be applied to GPS data to obtain better height location.

ARCHAEOLOGY
Gravity can be used to locate buried walls, buildings, and tombs.

REMOTE TABLET CONTROL WITH LYNX LG SOFTWARE

Building on the success of the Scintrex CG-5 Autograv™, we’ve re-engineered the design to make the CG-6 Autograv™ lighter, faster and more powerful.

SMALLER, SLEEKER PACKAGING
• 35% weight reduction: 5.2 kg (11.5 lbs) with 2 batteries
• 32% height reduction: 21.6 cm (8.5 in) freestanding height
• Re-engineered leveling tripod: 40% lighter, 25% stronger
• 20% reduced power consumption
• Reduced profile improves performance in windy conditions

COMPLETELY REDESIGNED USER EXPERIENCE
• Faster, easier levelling with improved tilt sensors, visual feedback and a lighter tripod with levelling screws ergonomically placed at the front of the meter
• Improved on-board interface and new tablet compatibility
• New tablet enables remote operation and advanced data processing with acquisition up to 10 Hz and many other features
• Intuitive on-board user interface for faster surveying, backlit inclined display for easy readability and 4GB of on-board memory
• Bluetooth and USB connectivity

IMPROVED SENSOR PERFORMANCE
• Reduced long-term drift
• Compact design with reduced warm-up and stabilization time

ALSO AVAILABLE:
CG-5/CG-6 Trident Vertical Gravity Gradient Tripod

TRAINING PROGRAMS
Customized training programs at client-site or at our facility near Toronto, Canada.

APPLICATION SOFTWARE
Software packages are available to support data processing interpretation and mapping needs.

ADDITIONAL SERVICES
Micro-g LaCoste and Scintrex are pleased to provide additional services such as feasibility studies and data processing.

COMPLETE GRAVITY SOLUTIONS
LYNX LG LAND GRAVITY PROCESSING SOFTWARE FEATURES:
• Bluetooth connectivity for hands-free operation
• Real-time position maps
• Simple Bouguer mapping
• Previous survey/station recall
• Station/Route import capabilities (KML, GPX, Delimited ASCII)
• Searchable survey database
• Advanced corrections
• Tilt and drift calibration interface
• GPS integration/synchronization

* Tablet software features are subject to change without notice.

MINIMUM HARDWARE SPECIFICATIONS: Windows based operating system, multi processor controlled, Wi-Fi, Bluetooth, GPS
